

Lean: Healthcare Green Belt Certification Program

Developed in partnership with medical professionals, the Ministry of Health and Lean Advisors, Automated Learning offers an Online Lean Healthcare Green Belt Certification.

The Knowledge Vacuum

Knowledge and understanding are critical to the overall Lean transformation process. To support this transformation, key individuals must possess the knowledge and expertise to lead Lean Value Stream Transformations. By earning a valuable credential to enrich their contribution within their organization, individuals gain credibility with not only senior leaders, but also with their peers and subordinates.

Developed in partnership with Healthcare Organizations and Automated Learning Corporation, the Online Green Belt Certification is a virtual/remote version of the Lean Advisors On-Site Green Belt Program.

Using our interactive, e-learning courses combined with remote one-on-one Coaching from a Senior Consultant, an Online Green Belt Certification will provide individuals with both the knowledge and the demonstrated capabilities to assume greater responsibility to lead Lean business process improvement initiatives and promote effective cultural change.

The Solution – Online Green Belt Certification Program – for Healthcare

Online Green Belt Certification offers tremendous value and is the perfect fit for those who are looking for a cost effective solution and who prefer (or require) the flexibility to learn and earn their designation in a remote/virtual fashion.

Immediate employer benefits of this program are that processes become more efficient, streamlined, and cost effective within a short period of time.

Lean Healthcare Green Belt Program Benefits:

- Cost Effective - To support budget constraints.
- Time Saving - Learn Anytime, Anywhere, plus remote coaching around your schedule.
- Expert One-on-One Coaching/Mentoring - Individual support from Senior Lean Consultants.
- Consistent Content – Parallels Lean Advisors' on-site training and implementation.
- Flexible and Easy to access, use, and learn - No technical knowledge required.
- Improved Learning - Concepts explained in clear, common language, with graphics, photos and video clips.
- Individuals set their own pace - Increasing success rate and content retention.
- Manage Learning Outcomes - Administrative access to participant lists, progress charts, scores.

What is involved in an Online Green Belt Certification Program?

An Online Green Belt is divided into two distinct elements: Online Training, and Individual Coaching/ Mentoring through a Value Stream Project, chosen by the participant.

To Achieve Green Belt Certification, participants must complete/demonstrate the following:

Phase 1: Online Courses in Lean Theory / Concepts

Completion of six Online Courses with a minimum 80% academic score

- Core Fundamentals:
 - [Introduction to Lean Concepts](#)
 - [Value Stream Mapping](#)
- Lean Tools:
 - [5S Workplace Organization](#)
 - [Mistake Proofing](#)
 - [Kaizen Events](#)
 - [Achieving Flow](#)

"The online lean training tool developed by Lean Advisors has been a very effective way to deliver key training in a very efficient manner. It has really enhanced our education offering, and by letting people go through the modules at their own pace. It has allowed us to reach more people, more quickly, and with more effective outcomes."

STEVEN READ, CA, MBA VP CORPORATE SERVICES & CFO, BROCKVILLE GENERAL HOSPITAL

Phase 2: Virtual Coaching/Mentoring in Lean Practical Application & Certification

Participants select a Value Stream Project within their organization and work one-on-one with their Lean Coach to apply and demonstrate the following competencies:

- Value Stream Charter document to define scope of work and expectations
- Value Stream Map
 - a Current State Map,
 - a Future State Map,
 - an Implementation Plan
- Kaizen Charters for each Kaizen as per the plan
- Completed Kaizens with documented results
- Ability to liaise with senior leadership team
- Ability to influence staff at all levels
